

Date: 4/12/2024

Attendance: Daniela, Hreimur, Jon, Kormákur, Tumi, Yeabsira

- Goal of the day
 - Yeabsira is going to work on the maintenance report UI.
 - Jon is going to finish working on the UI section of Location UI layer
 - Kormákur will be working on the work request UI
 - Tumi is going to finish working on Contract menu and making all of it function through all of the layers.
 - Daniela is going to be working on the Employee UI page
 - Hreimur is going to be focusing fully on the storage
- Before the next meeting
 - Before the next meeting we wish to finish a majority of the overall look aka. The UI layer.
 - We would also like to have finished the contractor through all layers so that we can learn from that code how the others would do it to make the programming easier for all of us.
- Priority list
 - The NR 1 priority would be to get the contractor menu fully finished to use it as a helping hand to making the other codes.
 - The NR 2 priority is to finish the base UI layer so we can have the look of the program complete making the other layers easier.
 - The NR 3 priority is any progress of the storage layer we could get.
