Fundarskýrlsa

Attendance: Daníela, Hreimur, Jón, Kormákur, Tumi og Yeabsira

Date:26.11.2024

Time: 11:00

Status

- We have reworked the majority of the reuirement list based on previous mistakes. The user group analysis is finished.
- o The class diagram is in good spot and the git handbook is in a good place

o Jobs

- Hreimur is going to finish the git handbook and continue working on the class diagram along with tumi
- o Tumi is going to be working on the class diagram
- Daníela, Jón, and yeabsira are going to try to finish the use cases or at least the majority of them.
- Kormákur is going to fix the requirement list and and when finished work on use cases along with the others

Goals for the day

- We are going to finish the git handbook and requirement list (#1 priority)
- We aim to finish at least half of the use cases (#2 priorty)
- o We will go a long way with the class diagram and all understand it (#3 priority
