Morning Meeting 25.11.2024

Present : Daníela, Hreimur, Jón, Kormákur, Tumi og Yeabsira

We started by going over the project description to get a general idea of what we are working on over the first week. We choose a project manager which is Tumi, Github master is Hreimur. Hreimur then went and showed the group basic uses of github and invited them to the github orginazation and repository.

Daníela, Jón, Kormákur and Yeabsira started on the user group analysis and requirement list. Hreimur and Tumi started working on the class diagram.
